## MUSIQUE À FLAINE

*Musique à Flaine* is a music academy of high quality centred on chamber music and instrumental work. Its aim is to help students to become musicians at the highest level under the guidance of artists of great experience in an exceptional mountain site of strong cultural tradition (auditorium, teaching and practice spaces).

Independent musicians and chamber music ensembles come to work and prepare international competitions.

Favouring the “Marlboro Music” model where the training and the membership in the community of musicians involve periods of intensive collaboration, we organize many concerts in which the professors and some confirmed students perform together.
